

THE POCHE DAILY RECORD

THURSDAY, NOVEMBER 21, 1873.

A. D. JONES, EDITOR.

AGENCIES.

San Francisco—MYRON ANGEL, 432 Montgomery St., Room No. 11, Sole Agent for Hancock, Star District, Utah—J. A. SCHMIDT & CO. Hamilton—T. STARR, Russell's Bookstore. W. A. GEDLING, News Dealer in Goodrich's saloon, is our Agent in Bullionville, and is authorized to receive subscriptions for the Record and receipt for the same. Virginia City—JAS. McDONALD. Europa—F. LOEWY & CO.

THE COUNTY DEBT.

Lincoln county, like most of the counties in the State, is burdened with a heavy debt, and one which the people cannot afford to bear. It is not our purpose at this time to saddle the blame of this indebtedness upon those who have managed the county finances, but we enter upon the more agreeable and we trust more profitable task of endeavoring to show how the county may be put upon a better financial basis. County warrants on the general fund now command from 40 to 45 cents on the dollar, and all who do work for the county must charge at least twice as much as they would if they were paid in coin. Eventually every dollar of the debt thus contracted must be paid in full. Of course this is ruinous to the prosperity of the county, and a remedy for the evil must be found. The remedy can only be afforded by the Legislature at its next session. We therefore direct the attention of Senators Clapp and Wilson and Assemblymen Shoff, Wallace and Craigne to this important matter, feeling assured that they will give the subject the serious consideration it merits. By reference to chapter IX, Statutes of 1869, p. 52, they will find an act passed in relation to the finances of Lyon county, and on p. 91, Statutes of 1871, is an act amendatory of the first named act. These laws contain provisions which apply with great force to the financial condition of Lincoln county. Such or similar legislation for our county will place its finances upon such a basis that it will be able to pay cash for all expenses incurred hereafter, leaving the present debt to be paid by the proceeds of a special tax to be provided for, or by setting aside a portion of the tax levied for general county purposes as a redemption fund. The amount of tax necessary to be raised or set aside as a redemption fund is the most important matter to be considered by the delegation from Lincoln county to the Legislature. The amount of the county debt and the receipts of taxes for county purposes should be taken into consideration, and whatever tax upon the \$100 worth of property may be found necessary to meet the present indebtedness, consulting both the interests of the county and the rights of those who hold its evidences of indebtedness, should be provided for by an act of the Legislature as soon as practicable after the meeting of that body in January. All the requisite data concerning the amount of the county indebtedness, the amount of revenue collected for general county purposes, etc., are matters of record at the Auditor's office. The act concerning the finances of Lyon county have been found to work admirably, having brought that county from a condition bordering on insolvency to a healthy financial basis. Similar legislation will be highly beneficial to Lincoln county, and we are confident that our delegation will not overlook so important a matter.

THE DIAMOND PARADISE.

The Diamond Paradise.—The Denver News contains a report of an address given in Denver by ex-Governor William Gilpin, upon the diamond fields of Colorado and New Mexico. By the aid of maps Governor Gilpin traced the country, rich with sparkling stones and bright metals, from the San Juan district of Colorado, through Mexico, down into South America to the Cordillera of that country, and compared it with that of South Africa, where the diamonds are now gathering. Governor Gilpin said that the rocks which contain the silver have an altitude of about ten thousand or ten thousand five hundred feet, while gold is from eight to ten thousand feet. Gold is sometimes above nine thousand feet, and silver below ten thousand feet. In the carbonate of lime, or limestone formation, of an altitude of about seven thousand feet, the diamonds will be found. Here a stratified rock of sandstone occurs in plates like India-rubber, which is carboniferous limestone, and from this comes all the precious stones. At an altitude of seven thousand eight hundred feet above the sea level, the best stones are found in the greatest profusion. Ever long it will be demonstrated that our Territory, in San Juan, near Poncha Pass, will develop more diamonds than any other locality in the world. The southern portion of the Territory, near the New Mexican line, is prolific in the most precious of minerals and the largest and purest of diamonds. The diamond country of Colorado he claimed to have the finest climate of the continent; the warm winds of the plains being cooled by the ice-capped mountains that sheltered the beautiful country in which the richest of the gems and metals are to be found. Then there is a superabundance of water for diamond washing, gold and silver mining. But nature here did not exhaust herself in the carboniferous, oriferous and argentiferous, the surface land is rich and arable, and will produce sufficient to supply hosts of miners with the best that can be grown anywhere.

IMMIGRATION TO AMERICA.

According to the last quarterly report of the emigration officers at Liverpool, the number of people emigrating from Europe to America is not only immense, but constantly increasing. During the months of July, August and September, ninety-nine ships left Liverpool for the United States, carrying 36,491 stowage passengers, and nearly 60,000 in the cabin. Seventy-nine ships left for Canada carrying 5,007 emigrants; one left for Victoria and one for South America. The aggregate number of passengers was 50,385—of whom the greater portion (18,279) were English, and only 5,104 Irish. The most notable feature of the quarter's return is the sudden access of Swedes, Danes and Germans to the emigration from Liverpool—no less than 15,853 of the whole number having been drawn from the Scandinavian and German countries, coming by way of Hull to Liverpool, and thence to the United States, in preference to shipping from the Baltic direct by the Bremen and German steamers. The Liverpool returns show that during the whole quarter the departures of ships for the United States have averaged more than one per day, while the emigrants have flocked westward at the rate of 12,000 per month or 144,000 per year.

A VISALIA (Cal.) DISPATCH OF THE 14TH.

William A. Hart was sentenced this morning to be hanged December 20 for the murder of Levi Fletcher, the Supreme Court having denied a new trial. Thomas Moody is sentenced to be hanged on the same day for the murder of John Finlay in August last.

THE SALT LAKE TRIBUNE HAS BEEN HAVING TROUBLE WITH THE PRINTERS.

On Saturday last the latter "struck" and left the managers of the paper in a tight place; but the assistance of members of the craft who were pressed into the service the Tribune appeared in its regular order. The printers' side of the story has not reached us; so we can't say who is to blame.

A "NEW PARTY" MOVEMENT HAS BEEN STARTED IN SAN FRANCISCO.

In 112 counties in Missouri, Greeley has 25,640 majority. The majority for Grant in Virginia is 2,068.

BULLIONVILLE LETTER.

BULLIONVILLE, Nov. 18th, 1873.

ED. RECORD: A movement is on foot to devise some means to supply this town with court room and calaboose facilities. At the present time there is no place in which legal business of any kind can be conveniently conducted. What is more, if a person become excited through liquor or otherwise, and should for the time being become dangerous, there is no lock-up in which he can be secured for even an hour. If an important criminal examination should be had there is no place in which the prisoner can be secured for a single night. The people here have awakened to the fact that we need a good convenient court room and a safe lock-up attached thereto, as fully as any nonincorporated town in the State. The mill (except the American Flag) are all busy, and the bullion is turning out in the usual quantities. A private letter from Salt Lake City gives assurance that diamonds have been found in South-eastern Colorado, and that the returned prospectors are about starting out on another trip.

PIONEER.

THE RECORD.—Various are the commendatory notices which our exchanges have been pleased to make in regard to our paper since its consolidation with its late rival. We cannot find room for all, but will give the following from the Ogden Junction as a sample:

The Pioche Review is now absorbed by the Record. Opposite in politics, antagonistic in journalism, they are now blended in one. Pioche will now have but one paper; we think a good, sound journal of which it may be proud. A. L. Jones' name still stands at the head of the paper. What has become of Knyon, and where will he try his hand at journalism and fail, next? Who knows?

The Diamond Paradise.—The Denver News contains a report of an address given in Denver by ex-Governor William Gilpin, upon the diamond fields of Colorado and New Mexico. By the aid of maps Governor Gilpin traced the country, rich with sparkling stones and bright metals, from the San Juan district of Colorado, through Mexico, down into South America to the Cordillera of that country, and compared it with that of South Africa, where the diamonds are now gathering. Governor Gilpin said that the rocks which contain the silver have an altitude of about ten thousand or ten thousand five hundred feet, while gold is from eight to ten thousand feet. Gold is sometimes above nine thousand feet, and silver below ten thousand feet. In the carbonate of lime, or limestone formation, of an altitude of about seven thousand feet, the diamonds will be found. Here a stratified rock of sandstone occurs in plates like India-rubber, which is carboniferous limestone, and from this comes all the precious stones. At an altitude of seven thousand eight hundred feet above the sea level, the best stones are found in the greatest profusion. Ever long it will be demonstrated that our Territory, in San Juan, near Poncha Pass, will develop more diamonds than any other locality in the world. The southern portion of the Territory, near the New Mexican line, is prolific in the most precious of minerals and the largest and purest of diamonds. The diamond country of Colorado he claimed to have the finest climate of the continent; the warm winds of the plains being cooled by the ice-capped mountains that sheltered the beautiful country in which the richest of the gems and metals are to be found. Then there is a superabundance of water for diamond washing, gold and silver mining. But nature here did not exhaust herself in the carboniferous, oriferous and argentiferous, the surface land is rich and arable, and will produce sufficient to supply hosts of miners with the best that can be grown anywhere.

IMMIGRATION TO AMERICA.

In 112 counties in Missouri, Greeley has 25,640 majority. The majority for Grant in Virginia is 2,068.

Telegraphic Dispatches.

SPECIAL TO THE POCHE DAILY RECORD

PACIFIC COAST.

San Francisco, Nov. 20.—The anxiety about the safety of the steamer Arizona is removed. On the 14th she was spoken off Manzanillo, in tow of the Constitution. She had been disabled by breaking her piston, and all her passengers were transferred to the Constitution.

There was heavy frost in this city last night. In a private suit, Ex-Treasurer Kloppenberg accuses J. J. Haley of the larceny of \$3,500. The case is still on trial.

The owners of Platt's Hall publish a card, in which they say that Mrs. Fair will not be permitted the use of the Hall to tell what she knows about wolves.

The jury in the Haggerty arson case have finally returned a verdict of guilty. Owing to the extension of the time in which to pay taxes on real estate, the department funds of the city are exhausted. Where \$500,000 was expected this month, only about \$100,000 will be realized.

A few days since a man named Peterson was arrested for abducting a little girl and concealing her under a wharf. He was her lover. At the instance of her uncle, a guardian was appointed, who consented to her marriage with Peterson. They were married to-day, and started East.

It is now stated that Laura D. Fair will tell what she knows about wolves, at Mozart Hall, to-morrow night.

George McCullough, tried for stealing a horse and buggy, was acquitted to-day.

The Bacon Mill and Mining Co. has increased its capital stock to \$2,400,000. The steamers Arizona and Constitution were spoken off San Diego, under convoy of the U. S. Steamer Saranac. All well on board.

Portland, Oregon, Nov. 19.—The thermometer at Walla Walla this morning was 16 deg. above zero, with five inches of snow on the ground. Large quantities of floating ice are reported in the Columbia at the Dalles. Navigation above that point is closed for the season. The Willamette Real Estate Company was incorporated yesterday, with a capital of \$1,000,000; W. Halsey, President.

EASTERN.

Boston, Nov. 20.—The first day's session of the Legislature was mainly occupied in receiving petitions for amendments to Insurance Charter Acts and the appointment of Committees. The Old South Society applied for leave to sell or lease their Church property. The City of Boston applied for leave to issue bonds; also for a law regarding the erection of buildings. Leave was asked to introduce a bill to incorporate Wm. Gray, Otis Norcross, Wm. Claflin, George C. Richards and others, as the Boston Merchants' Exchange, with leave to hold two million in real estate. Order adopted to consider the expediency of providing for the better protection of parties believing themselves insured.

The Citizens' Relief Committee have made a report, in which they said the number of applicants for aid had been about 9,000, of which we think three-fourths are heads of families. In our judgment 5,000 persons are represented in these applications. To those who resided in the burnt district and lost their houses, but have taken other quarters, the Committee are furnishing furniture, bedding, stoves, fuel, clothing and groceries. There are many applications from unmarried men and women who lost employment as well as tools by the fire, and were left without means of support. The Committee have referred all such for employment to the Committee appointed for this purpose; and in some cases, where the necessity appeared to be urgent, have given money to pay a week's board, and have given orders for tools. The Committee find the number of mechanics and laboring classes who suffered by the late fire to be much larger than they expected, and the applications for relief at present are on the increase rather than falling off. It is evident that the losses have been much underestimated in the department of labor, and it seems certain that very large calls will be made for assistance, and means larger than now appear available will be required.

Wm. Gray and other prominent citizens recommend Otis Norcross for Mayor of Boston, as the best man to meet the requirements of the city at this time.

New York, Nov. 20.—In the Court of Oyer and Terminer to-day, after considerable argument, Tweed's case was set for next Tuesday. Judge Brady issued an order to-day giving Tweed access to the vouchers from which indictments against him have been found.

Montgomery, Ala., Nov. 20.—Four other Conservatives arrived and enrolled their names at the Capital; also one Republican; making fifty, which is one less than a quorum. In the Senate, 19 Senators are present—two less than a quorum. Both houses adjourned until to-morrow.

New York, Nov. 20.—A special to the Evening Post, dated Washington, 19th, says there is good reason for believing that the President will, in his forthcoming message, recommend Congress to complete the work of amnesty by making it universal, and by restoring those to citizenship who are now excluded by the third section of the XIV Amendment,

Such a course has been urged upon the President by several members of the Cabinet, and one of them is authority for saying he has decided to do so.

Raleigh, Nov. 20.—The General Assembly of North Carolina is completed. In the organization to-day all the officers of both Houses are Conservatives. The Governor's message was sent to the House to-day, but was not read. Both Houses, in joint session, are comparing the vote for Governor and State officers.

New York, Nov. 20.—The Tribune this morning says that Mr. Greeley has been seriously unwell since his wife's death, from nervous prostration, resulting mainly from the severe strain upon his nervous system, through want of rest and sleep during the last month.

Every part of the Academy of Music was crowded last night, to hear Father Burke on Oliver Cromwell, in reply to Froude. He spoke two hours and a half.

Van Nort, Commissioner of Public Works, says it will take \$3,500,000 to give this city an adequate supply of water, and recommends an immediate appropriation of that amount.

A Havana letter states that the slaveholders of Cuba are taking every means possible to retain slavery, and have expended \$600,000 to secure from Minister Zorilla this expression: "While a single insurgent remains in arms, there shall be no reform in Cuba."

Boston, Nov. 20.—The contributions to the Citizens' Relief Fund amount to \$72,000, including \$1,000 in gold from Lord Dufferin, Governor-General of Canada. Contributions for Harvard College aggregate \$37,000.

Leavitt Alley was fully committed for trial, on a charge of murdering Abijah Ellis, whose remains were found in Charles River a few days ago.

New York, Nov. 20.—In Schmidt & Co.'s malt house, Brooklyn, 50,000 bushels of malt were burned this morning. Loss \$50,000.

New York, Nov. 20.—Two millions of bonds were awarded to-day, at 124@129.

FOREIGN.

Victoria, B. C., Nov. 20.—H. M. Ship Scout will sail to-day for Honolulu, and on her return will call at San Juan Island and take off the men, stores, ammunition and armament of the vacated garrison.

George Gosnell had the bone of his leg badly shattered by the bursting of a gun.

The steamer Maude was yesterday gotten off the rock at Peter's Point, after having been on for two weeks.

London, Nov. 20.—The police difficulties continue unsettled. Postmen joined the movement for an increase of salaries. Both bodies held meetings in Hyde Park on Sunday next.

A Paris dispatch states that President Thiers has resigned. Gen. McMahon is appointed President pending the action of the National Assembly. Great excitement in consequence.

New Advertisements.

MEADOW VALLEY BREWERY, Corner of Main and Meadow Valley streets, POCHE - - - - NEVADA.

F. KASTEN - - - - Proprietor.
